

## PATIENT ACCOUNTING

**ExpertPM Patient Accounting** allows you to easily customize your billing requirements. This system automatically calculates fees based on carriers, providers, and departments. In addition, feature options allow you to tailor the system to fit your unique business needs. Concise reporting delivers extensive accounts receivable and statistical data for your healthcare center.

### PATIENT REGISTRATION

- Insurance card scanning and display
- Electronic face sheet for on-line verification of demographic, insurance, financial review, and appointment information
- Medical alert codes displayed on patient information inquiries
- On-line crosschecking for bad debt account status
- Insurance company, plan, membership, effective date, and termination date displayed
- Referral source identified
- On-line help
- Extensive patient/account data
- On-line insurance verification

*Trusted Experience. Innovative Solutions. Unparalleled Service.*
