

SCHEDULER

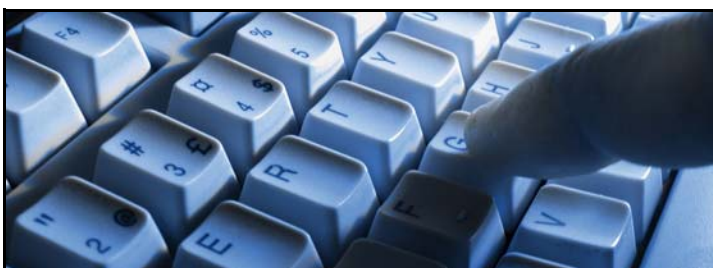

ExpertPM Scheduler is fully integrated to allow your clinic to take advantage of provider schedules and facility resources. It customizes scheduling parameters for each provider, and helps you improve management of heavy appointment scheduling trends.

HIGHLIGHTS INCLUDE:

- Customized or individualized physician master schedules defined by time increments, appointment types, and locations
- Improved revenue collection using extensive system integration features
- Features are closely integrated with the business office to provide the information you need to manage problem accounts
- Patient scheduling lockouts prevent patients from scheduling appointments when collection or other patient issues exist
- Appointment reminders may be printed and mailed or e-mailed prior to office visit
- Missing ticket report compares charges entered against scheduled appointments to identify any omitted charges
- Scheduling forms help reduce the number of “no-shows”
- Reports provide key statistical data for staffing requirements, employee productivity, population analysis, marketing, and resource planning
- Interfaces with premier automated appointment reminder systems that automatically dial, remind, and confirm patient appointments

Trusted Experience. Innovative Solutions. Unparalleled Service.

- Patient procedures may be scheduled when scheduling future appointments
- Clinic-designed charge tickets printed in batch or on-line for service sheet labels
- Routes demographics through HL-7 standard industry interface
- Prints numerous reports and labels including: missing ticket reports, service sheet labels, lab labels, and mailing labels
