

ExpertPM

ExpertPM is a comprehensive software system designed for practice management. It utilizes Microsoft's .NET architecture to deliver web page content from a central-based server. The applications use Internet Explorer to display screen information in an attractive new color palette.

ExpertPM is a state-of-the-art, provider-focused practice management solution with all the tools needed to streamline your healthcare center. Patient information is accessible and deliverable in a secure environment to authorized users anywhere in the world. **ExpertPM** provides reliable, robust, and user-friendly applications with over 1200 standard reports and interfaces to the EHR of your choice.
