

## Patient Accounting

**ExpertPM Patient Accounting** allows you to easily customize your billing requirements. This system automatically calculates fees based on carriers, providers, and departments. In addition, feature options let you tailor the system to fit your unique business needs. Extensive and concise reports deliver accounts receivable and statistical data for your healthcare center.

### Patient Registration

- Insurance card scanning and display
- Electronic face sheet for on-line verification of demographic, insurance, financial review, and appointment information
- Medical alert codes displayed on patient information inquiries
- On-line crosschecking for bad debt account status
- Insurance company, plan, membership, effective date, and termination date displayed
- Referral source displayed
- On-line help
- Extensive patient/account data
- Electronic insurance verification

*Trusted Experience. Innovative Solutions. Unparalleled Service.*

### Charge/Payment/ Adjustment Entry
